PROFILE SUMMARY

Motivated Computer Science student with hands-on knowledge of computer hardware, software installation, and troubleshooting. Familiar with basic networking concepts and passionate about helping users solve technical issues. Actively learning the MERN stack (HTML, CSS, JavaScript, React.js, Node.js, MongoDB) and seeking an entry-level IT Support/Helpdesk position to contribute my skills, gain practical experience, and grow under the guidance of industry professionals.

EDUCATION

BS Computer Science (7th Semester, Ongoing) - University of Central Punjab, Rahim Yar Khan Current CGPA: 3.2/4.0
Intermediate in Computer Science (ICS) - Oxbridge College, RYK
Matriculation in Computer Science - National Garrison Secondary School, Rahim Yar Khan
Diploma of Professional applications (14 months) in Vocational training institute Rahim Yar Khan

PROJECT

SkillVerse - MERN stack based home service platform enabling customers to find and hire verified professionals (electricians, plumbers, carpenters, etc.). Developed category-wise schemas, dynamic routes, and secure authentication. Implemented read-only customer profiles, worker dashboards with hire request management, and admin approval system. Integrated file uploads (CNIC, profile picture, resume) and Gmail notifications for real-time updates

CERTIFICATES

- MERN - Certification of Participation (2025)
- MS office - Certificate of participation in Professional Applications
